Icra revises FY23 outlook for real estate to stable

FE BUREAU Mumbai, April 22

RATINGS AND RESEARCH firm ICRA has revised the outlook for residential real estate outlook to stable from negative for the current financial year 2022-2023, supported by healthy sales traction and declining inventory overhang.

The healthy sales momentum is expected to sustain, with the sales in top seven cities expected to grow by 3% in FY23 on a high base of FY22. New launches are expected to be at a six-year high of 400 million square feet during the year, showing improvement from the previous two years which were impacted by the Covid-19 pandemic, the firm said in a statement.

Increasing preference for home ownership, improved affordability, all-time-low home loan interest rate, among other factors, will be driving growth for the sector. The larger and reputed builders with better delivery track record will continue to gain market share.

TCS aims to be world's largest IT company

PRESS TRUST OF INDIA

Mumbai, April 22

INDIA'S LARGEST SOFTWARE exporter TCS on Friday said it aims to become the topmost IT services company in the world, asserting that it does not "fear" its large-scale operation is hindering the firm's ambitions.

Speaking at the Times Network India Economic Conclave, Rajesh Gopinathan, chief executive and managing director of the company with \$25 billion in revenues and 6 lakh employees, said there is no reason for the company not to aspire to double, triple or quadruple the revenues from the current

"Absolutely, in many ways we already are," Gopinathan said, without giving a timeline, while answering a question on whether he sees TCS becoming the largest IT company in the world. He said the company,

which is the biggest IT services provider to the banking, financial services and insurance sector, comes a close second on employee count and has had instances of topping the global market capitalisation

Ceramic factories cut output due to natural gas shortage

NAYAN DAVE Ahmedabad, April 22

Factories at the world's biggest ceramic cluster situated in and around Morbi town in the Saurashtra region are forced to cut down production by nearly 25% following short supply of natural gas, lower demand and increasing logistic cost. "Against the daily require-

ment of nearly 65 lakh cubic meters of gas, ceramic units in Morbi are getting hardly 40 to 45 lakh cubic meters of gas per day over the past two months. The ceramic units are also feeling the heat of increased prices of natural gas which have gone from nearly ₹35 per kg to Rs. 62 perkg in a span of one year," says Haresh Bopalia, president of Morbi Ceramic Association. Gujarat Gas Limited (GGL),

India's largest City Gas Distribution player is the sole supplier of natural gas to Morbi cluster. Sources in the GGL confirmed that due to the Ukraine-Russia war, the company is facing difficulties in importing natural gas and hence supply is being hampered to its industrial clients. More than 75 percent of the total natural gas being sold by GGL is supplied to the Morbi ceramic cluster, said the official. In fact, GGL has officially

communicated to its customers in Morbi cluster about a 20 percent cut in gas supply from March this year, he said.

Apart from augmented prices and short supply of natural gas, domestic sales of ceramic products have declined due to slower demands from the construction industry, says Bopalia. On the exports front too, the cluster is facing similar problems ever since the beginning of geopolitical disturbances between Russia and Ukraine.

According to him, fresh export orders have curtailed by 50 percent in the past couple of months. Moreover, it has become extremely difficult for the export making units in the cluster to send consignments overseas as there is an acute shortage of containers. Container freights have gone three to seven times for different

overseas destinations, he added.

Dinesh Sadsania, an owner of export making units in Morbi says that despite high freight rates containers are not available. Many ceramic units used to source special clay from Ukraine to make large size vitrified tiles, says Sadsania adding that now import of clay too ceased which is also hampering production process. Nearly ₹15000 crore worth

of ceramic products are being exported to nearly 170 countries across the globe. If the current situation would continue for a longer period of time, this year the exports would go down by at least 50 percent, says captains of the Morbi ceramic cluster. Increased prices of diesel and petrol added salt in ceramic units wounds, as logistic costs have also gone up. The Morbi ceramic cluster houses nearly 1000 units. Of these, more than 70 percent are MSMEs. The cluster accounts for more than 75 percent of the total ceramic production of India. On an average Morbi based ceramic units manufacture approximately 55000 cubic metres tiles on a daily basis. The cluster's annual turnover is over ₹45000 crore yearly.
